**Sleep Mode On/Off:** Press & release the power button quickly to turn sleep mode on and off.

**Force Off:** If device does not respond, press and hold the power button for 8 seconds.

**Note:** If it is necessary, we don't suggest use **Force Off**. You should follow the steps to perform the shutdown.

**Reset Button:** Press the reset button to reset the device. Reset will erase all data on the device, please caution this feature. (**Note:** Current the reset function can not be restart, so after reset you need to press the power button to re-boot.)

---

## 3 Touch-Screen Navigation

The touch-screen allows for quick, easy and convenient navigation for all applications.

☆ *The smaller the point that comes in contact with the screen, the more precise object selection can be. If you do not have long enough fingers nails to be used for precise tapping, we recommend using the stylus or non-sharp pointed instrument to increase the precision of navigation.*

Throughout the User Guide, you are instructed to use the following tap or touch navigation methods:

**Tap:** quick tap & release on an item on the screen.

**Finger slide:** touch & slide your finger across the screen and then release.

**Touch & hold:** touch and hold in place approx 2 seconds, and then release to display an options window.

☆ *To avoid scratching or crushing, do not place objects on the touch screen surface.*

---

## 4 Transfer Box

You must use the transfer box if you want to use a USB storage device (U-disk) for accessing/storing your photos, music or video files.

Transfer Box

## Battery Management

The battery is not fully charged out of the box, so it is recommended that you charge the battery for at least 4 hours before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by following the suggestions below:

- Use your Tablet at least once a week.
- Charge the battery regularly and fully.
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat.

### Charge battery

Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the battery before use (approx. 4hour).

☆ *You cannot charge the battery using the USB cable.*

When fully charged, the battery icon displays as: .

A fully discharged battery takes approximately 5 hours to fully charge, but you can use the device while plugged in when desired.

## Important Safety Precautions

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

- Do not expose this product to rain or moisture.
- Keep the device out of direct sunlight and heat sources.
- Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.
- Only use the AC adapter included with the device. Using any other power adapter voids your warranty.
- Do not remove the cover. There are no user-serviceable parts inside.

### Clean your Device

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend

using a soft, non-abrasive cloth such as a camera lens cloth.
